EDUCATION

Shri Shankaracharya Institute of Professional Management & Technology

Bachelor of Technology in Computer Science and Engineering, CGPA: 8.6

Gurukul Higher Secondary School | Class 12 | 78%.

Gurukul Higher Secondary School | Class 10 | 85%.

Raipur, Chhattisgarh

Sep 2023 – Aug 2027

Bhatapara, Chhattisgarh

Bhatapara, Chhattisgarh

EXPERIENCE

Software Developer and Content Moderation Intern — Emilo Ventures Private Limited

Jun 2026 – Present

- Developing and enhancing a full-stack e-commerce platform, implementing key modules, features, and backend integrations while actively debugging and resolving application issues
- Working on ONDC integration and end-to-end flow testing, identifying and tracking bugs, and managing development tasks and issue progress through Jira

Web Development Trainee — Skyvo Technologies Pvt Ltd

Jul 2025 – Aug 2025

- Developed responsive jewellery website pages using React, HTML, CSS, and Bootstrap, focusing on UI design and mobile-friendly layouts
- Gained hands-on experience with basic API integration and Git-based version control while implementing dynamic frontend functionality

Web Development Intern — Acedemor EdTech

Sep 2023 – Nov 2023

- Developed a tourism information web application using the MERN stack (MongoDB, Express.js, React, Node.js), providing destination-wise travel details across India
- Built responsive frontend in React and designed RESTful backend APIs in Node.js with Express.js
- Managed data using MongoDB and deployed the project as part of internship completion

PROJECTS

Integrated Gifting – Multi-Vendor E-commerce Platform — React, Express.js, PostgreSQL, Prisma, NATS

- Contributed to the development and enhancement of a multi-vendor e-commerce platform, working on vendor onboarding, catalog management, and other core platform features.
- Implemented feature updates, resolved application bugs, and supported ONDC integration and end-to-end testing to improve platform functionality and reliability.
- Assisted in integrating Razorpay, Shiprocket, Socket.IO, BullMQ, Redis, and NATS for payments, logistics, real-time updates, and background processing.

Green Palna – Government Plantation Monitoring System — Flutter, React, Node.js, MySQL

- Developed mobile platform for Government of Chhattisgarh linking childbirth to environmental conservation, distributing 5 geo-tagged saplings per birth with real-time GPS tracking serving 1000+ families
- Implemented automated 3-month monitoring system with push notifications, photo verification, and pledge certificates achieving 85% completion rate across health workers and mothers

SkillBridge – Student and Company Opportunity Platform — React.js, Node.js, Express.js, MongoDB

- Developed a full-stack MERN platform connecting students and companies through internship and freelance opportunities.
- Implemented authentication, role-based access for students and companies, job posting, and application functionality.

Har Ghar Munga – Government Nutrition & Sustainability Initiative — Flutter, React, PHP, MySQL

- Built a cross-platform app for the Government of Chhattisgarh distributing Moringa saplings to over 5,000 families to combat anemia and malnutrition
- Architected a PHP REST API with a MySQL database handling over 50,000 distribution records with role-based access control and a real-time analytics dashboard for government officials

E-Commerce Jewellery Platform — React.js, HTML5, CSS3, Bootstrap

- Developed responsive jewellery website pages using React and Bootstrap, focusing on user-friendly UI, and basic API integration.

TECHNICAL SKILLS

Languages: C/C++, Python, Java, JavaScript, SQL, Dart

Frameworks & Libraries: React, Express.js, Node.js, Flutter, Prisma, Bootstrap

Tools & Technologies: Git, Linux, MySQL, RESTful APIs, NATS, PostgreSQL, Redis, Docker, DigitalOcean, Rocky Linux, Google Cloud Platform, Android Studio, VS Code, Arduino

Core Competencies: Data Structures & Algorithms, Microservices, Basic Server Administration, Database Design, Operating Systems, Computer Networks, System Architecture, Full-Stack Development, Cloud Computing

ACHIEVEMENTS

- Successfully Completed the 100 Days Leetcode Challenge, demonstrating consistency and strong problem solving skills.
- Participated in CODE2X Coding Competition atSSIPMT College, showcasing collaborative problem-solving abilities
- Completed 3 NPTEL certifications with hands-on implementation in Cloud Computing, Java, and Modern C++
